Midicake ARP - Case Replacement Instructions

1) Unplug the USB power and other cables.
2) Remove the 5 knobs by gently pulling them upwards.
3) Remove the 4 screws from the top case with an M2 (2mm) Allen key or T-10 Torx screwdriver.
4) Gently lift the top case off the device.
5) Take the new top case and clean any dust off the underside of the screen window.
6) Carefully place the new top case onto the device and secure it with the 4 screws.
7) Replace the 5 knobs (check the orientation of the indent before pushing down.
8) Power up the device and check that everything is functioning correctly.
